ALEXANDRIA, VA., FRIDAY EVENING, JUNE 18, 1897.

PRICE 2 CTS.

MEDICINAL.

The light in the window at midnight but too frequently tells the old, old story of approaching motherhood for some ill-prepared women. All too often death lurks on the doorstep. This is a story that would seldom be told if women would but properly prepare themselves for the duties of motherhood. If a woman will take the right care of the organs that make motherhood possible, approaching maternity will have no fears for her. Nature intended that all women should bear children, and did not mean that this duty should be a cruel torture. Woman's own ignorance and neglect have made it so.

All weakness and disease of woman's reproductive organism are cured by Doctor Pierce's Favorite Prescription. It acts directly upon these organs. It makes them strong and healthy. It prepares them for approaching maternity. It allays the discomforts of the expectant period. It makes baby's coming easy and comparatively painless, and insures the health of the child. All good druggists sell it.

"I have had three miscarriages," writes Mrs. J. L. Shaffer, of New York City, S. Dakota. "Last Spring I received one of your Favorite Prescription bottles and took it. I took eleven bottles of it and here I am bright and healthy as of old, which I owe to God and your medicine."

What woman does not wish to make her family as light as possible, consistent with her family's well-being? The greatest cause of all is the fear of sickness. It is a common saying amongst conscientious mothers: "As long as the children are well, I don't mind anything else." For these mothers Dr. Pierce's Common Sense Medical Adviser would prove "The shadow of a great rock in a weary land." This book of 1,000 pages, profusely illustrated, gives plain talks and kindly sensible medical advice. It is peculiarly valuable for mothers of young daughters. More than a half a million copies of this book have been sold for \$1.50 each. Now there is an enormous edition to be given away. Send a one-cent stamp, to cover cost of mailing only, for a copy in paper cover. For cloth binding, send a one-cent stamp. World's Dispensary Medical Association, Buffalo, N. Y.

Tetter, Salt-Rheum and Eczema.

The intense itching and smarting incident to these diseases is instantly allayed by applying Chamberlain's Eye and Skin Ointment. Many bad cases have been permanently cured by it. It is equally efficient for itching piles and a favorite remedy for sore nipples, chapped hands, chilblains, frost bites and chronic sore eyes. 25 cts. per box.

Dr. Cady's Condition Powders, are just what a horse needs when in bad condition. Tonic, blood purifier and vermifuge. They are not food but medicine and the best in use to put a horse in prime condition. Price 25 cents per package.

MAY WORK THE WHIRLPOOL.

What may result in the development of another power project at Niagara Falls is attracting the attention of the Aldermen of Niagara Falls, Ont., through statements made by an engineer named Mitchell. At the suggestion of prominent citizens Mr. Mitchell took levels of the lower Niagara river along the famous whirlpool rapids from the Cantilever bridge to the whirlpool and found that there is a drop of 40 feet in the river's level between the two points mentioned. The commissioners of Queen Victoria Park, Canada side, had their attention called to the power possibilities presented at the point referred to, and have also taken levels which go to show that the drop is from 45 to 50 feet. These possibilities were presented to the board of trade of Niagara Falls, Ont., who passed a resolution pointing out the advisability of the town council making some arrangement with the park commissioners, the controlling body, whereby the town might be given rights on the property for the purpose of developing the power. At its last session the Parliament of the province of Ontario conferred on towns certain powers for the development of power, and it is felt by some that under the rights so conferred the town of Niagara Falls, Ont., may obtain from the Park Commissioners some benefit to their desires.

Despite the fact of the fall in the level of the water of the river between the two points referred to, the cantilever bridge and the great whirlpool, it remains for further evidence, based on more careful examination by engineers, to prove whether or not the development of power at the point could be made profitable. The spot is at the side of the whirlpool rapids, and the current and the rapids are very fierce for the whole distance between the points. It is probable that any plan adopted would mar the beauty of the Canadian river bank, but certainly no more so than the construction of the gorge road has the American bank.

MRS. GREEN AND TITLED FOREIGNERS.—Mrs. Hetty Green is quoted as expressing her disgust at the titled fortune hunters who are seeking the hand of her daughter, Sylvia. "You've no idea," she says in the Evening World, "how persistent or how numerous they have been. I could have had a seat down among the nobility at the Russian coronation. Any of the Russian noblemen here would have been glad to arrange it for me. In my desk I have a lot of papers that would make interesting reading for a good many people. Why, I had one of those marriage brokers on the East Side call on me one day in my office in the Chemical Bank and submit a proposition of marriage, which he said would be advantageous to Sylvia and myself. Just think of it! He said he had been commissioned to negotiate with me by a Bavarian count. The marriage broker simply told the truth, but I called the porter and had him hustled out into Broadway."

Mrs. Green expressed her ability to protect her daughter against these fortune-hunters. She has certainly demonstrated her commanding ability in the protection and increase of her great wealth.

Dr. King's New Discovery for Consumption.
